

SALONEE SHRESTHA

Flutter Developer | Mobile App Enthusiast | BCA Student

+977-9748285363 | mesaloneeshrestha@gmail.com | github.com/saloneesthss
Bhaktapur, Nepal | linkedin.com/in/saloneesthss

CAREER OBJECTIVE

Motivated BCA student from Swastik College with hands-on Flutter development experience through self-built projects. Proficient in Flutter widgets, designing, state management, and database integration. Seeking a Flutter Internship to contribute to real-world mobile applications and grow as a professional developer in Nepal's tech ecosystem.

TECHNICAL SKILLS

Mobile Development

Flutter, Dart, Android SDK

State Management

Provider (Basic), setState

Database & Storage

SQLite (sqflite), shared_preferences

Navigation & Architecture

Flutter Navigator, Named Routes, Multi-screen App Structure

Tools & Others

Git, GitHub, VS Code, Android Studio, Figma (Basic)

Programming Languages

Dart, Java (Basic), C (Basic)

PROJECTS

GenZee Wears – E-Commerce App

Flutter · Dart · SQLite · Navigator

A clothing e-commerce app with product browsing, cart, and local data storage.

- Designed multi-screen UI including Home, Product Listing, Product Detail, Cart, Wishlist, and Checkout screens
- Implemented multi-page navigation using Flutter Navigation with named routes
- Built cart and wishlist functionality with local data persistence using sqflite
- Applied custom Flutter widgets, Poppins typography, and consistent design system throughout the app

Traveo – Travel Seamlessly

Flutter · Navigator · shared_preferences

A travel discovery app featuring destination browsing, search, and saved favorites.

- Built Home, Destination Listing, Detail, Search, and Favorites screens with smooth navigation
- Designed visually appealing destination cards with cached images and category filters
- Implemented save/unsave functionality using shared_preferences for offline persistence
- Structured the app with reusable custom widgets for consistent UI across all screens

Clinigo – Doctor Appointment Booking App

Flutter · Dart · SQLite · Navigator

A healthcare app for browsing doctors and booking appointments with local storage.

- Built screens for Doctor Listing, Doctor Detail, Appointment Booking, and My Appointments
- Implemented date and time slot selection UI using Flutter date picker widgets
- Stored and retrieved booked appointments locally using sqflite database
- Designed clean, user-friendly UI with speciality-based doctor filtering

EDUCATION

Bachelor of Computer Application (BCA)

2022 – Present

Swastik College, Bhaktapur | [Currently in 7th Semester](#)

- Relevant coursework: Data Structures, OOP, Database Management, Software Engineering, Web Technologies
- Actively building Flutter projects alongside academic studies

+2 Management (HSEB)

Completed 2022

Global College of Management, Mid-Baneshwor, Kathmandu

CERTIFICATIONS & COURSES

- **Extra Courses in College** – Flutter & Dart – Beginner Level Designs and Widgets
- **YouTube / Self-study** – State Management and Database Integration
- **Online** – Git & GitHub Crash Course

STRENGTHS

✓ Quick Learner	✓ Team Collaboration	✓ Problem Solving
✓ Attention to Detail	✓ Self-Motivated	✓ Deadline Oriented

LANGUAGES

Newari (Native) **Nepali** (Fluent) **English** (Professional – Reading, Writing & Speaking)
Hindi (Conversational)
